## Description:

This book offers a modern perspective on the floral motifs that have been a stumpwork mainstay for centuries. It features 19 floral motifs and eight projects, the simplistic design of which showcase the artistry involved in the craft. The well-developed introductory section provides readers with step-by-step photos and illustrations of all the techniques used in the book, making the book suitable for embroiderers of all abilities. This book will encourage readers to take up stumpwork and the fresh, contemporary designs will draw readers in, while the easy-to-follow instructions and small projects will show readers just how accessible this craft really is. The book is composed of three clear sections: an introductory section; a project gallery, featuring beautiful photographs of each project motif; and project instructions.

I have been interested in silk ribbon embroidery for some time and have just recently seen it coming back. Related to that is stump work embroidery as well as Brazilian embroidery, both of which I am actively involved with now. The stump work flowers book is a great addition with great details about how to make the flowers as well as helpful hints. I am excited about trying even more projects using these techniques.
